Working experience on contract basis

2007 – 2009 Code d'Azur

Lead Actionsript developer; daily work includes developing commercial websites, creating prototypes for animation / visual effects and AIR applications.

Worked on several projects including but not limited to:

Burendag 2008 - www.burendag.nl

Dutch Sanex Product catalog and portal - www.sanex.nl -

Shell Club - Exclusive subscription service for Shell Belgium -

www.shell.com/home/content/be-nl/shell_for_motorists/club/club_be.html

Cold Method - Latest version of their website, done in AS3 www.coldmethod.eu

Studio Angel - Studio facilities in Amsterdam. www.angel.nl

Technologies used: Actionsript 3 / AMFPHP

2006 Media Catalyst, Flash Developer, www.mediacatalst.com

Media Catalyst is a media company that specializes in full blown, multi-lingual, high performance websites. Their portfolio includes clients like Sony-Ericsson, Speedo, World Press Photo and Drambuie. For all of above I realised the Flash development; working with external data and in multiple languages. Work included Flash videoplayers, menu's and eyecandy.

2005 Bitmove, Developer/Designer, www.bitmove.com

Bitmove participates in the amusement industry including theme parks and visitor centers. Providing Videomail-, Fotomail- and Bluescreen applications for clients like Boomerang, Bacardi, Amstel and ANWB. Work included assembling PC's, creating applications (development) and design. Web developing (PHP, MySQL), created corporate website (Back and front-end).

2005 Rhino Creations, Web developer/Designer, www.rhinocreations.com

Web developing (PHP, MySQL, Flash) and web design. Creating animated Screenads, banners and skyscrapers, Flash games and mini applications. Clients include Amstel Beer, Talpa, Redbull, AdRime, Volvo, Spaarbeleg, Speurders, Web Ads and Telegraaf.

2003-2005 MTV Networks B.V, Webmaster, www.mtv.nl

Web developing (PHP, MySQL), design (Photoshop, Flash), editorial tasks (writing texts), design and application realisation (PHP en MySQL).

Setting up the MTV Internet department. Working with interns. Setting up a new corporate website, working closely with marketing department.

Working Experience on freelance basis:

2007 Cold Method, Flash Developer, Code d'Azur

Cold Method is a clothing company that had no website. They wanted a attractive way to show their collection online. The whole site is about timing and feeling. The Flash application consists of a collection viewer, store locator and a news module. Technologies used: XML, Flash, Actionscript 2 (OOP). www.coldmethod.eu won several flash awards and became an Adobe Site of the Day on 11-05-2007

2007 Renault / Nickelodon, Flash Developer, Ministry of Media, www.scenick.nl

For Renault and Nickelodeon I developed an application for kids, to be shown on the Nickelodeon website. Kids can view the latest video feeds (from a certain program) in Flash, take the Scenick for a spin and view the car inside out. Technologies used: Actionscript 2, PHP and MySQL

2007 Afbeelding Op Canvas, Code d'Azur, www.afbeeldingopcanvas.nl

Afbeelding op canvas needed a new and better way for users to upload their photos, manipulate their photos and send it. Code d'Azur created a concept for this and i translated that into a working application. Flash application consists of a upload module, image manipulation and canvas picker. Technologies used: PHP, Flash, Actionscript 2 (OOP).

2007 Rexona, Flash Developer, US Media

For US Media I worked with their development team and build parts for two commercial campaign sites for the Rexona (Unilever) client. Technologies used: Flash remoting (AMFPHP), Flash, Actionscript 2 (OOP).

2006 Renault / Nickelodon, Flash Developer, Ministry of Media, www.scenick.nl

For Renault and Nickelodeon I developed an application for kids, to be shown on the Nickelodeon website. Kids can color a car in their favourite colors and save it to the database. Technologies used: Actionscript, 2 PHP and MySQL

2006 Parc Productions, Designer, www.parcproductions.com

Parc Productions hired me to design the intranet pages for the new Mobile Satellite Communications Division from France Telecom/Wanadoo.

2006 Combat, Flash Developer, www.combat.com

Combat is an creative agency that specializes in child communications (Comminucatie voor onvolwassenen). Combat hires me on a periodic basis to develop various Flash applications, virals, banners and commercial minisites. Clients include Kennisnet and VTL.

2006 Amsterdam Center for Entrepreneurship, www.ace-uva.com

The Amsterdam Center for Entrepreneurship is a foundation based in Amsterdam that gives lectures and advice about entrepreneurship. Development involved a client specific CMS (PHP and MySQL) and realisation of their already designed website.

2006 Funkler, Flash Developer, www.funkler.com

Funkler is an advertising agency based in Amsterdam. They asked me to help develop a website for one of their pharmaceutical clients, Prioderm and Inhibin. Development also included PHP scripting. I did work for them on a periodic basis.

2005 Seiko/Honda, Developer/Designer, www.seiko.nl

Designed and developed an interactive screensaver for Seiko Watches and the Honda Formula1 Team. To promote their new Honda Bar Watch campaign, RSPNS (www.rspns.nl) contacted me to create an interactive screensaver as extra promotion. Screensaver can be found at www.seiko.nl
